

PRODUCTS

Surgi-Vest®

Breast wrap supports ribs, sternum, and breast tissue after heart/chest surgeries, especially those complicated by obesity, large breasts, or excess fatty tissue. Available in White.

- Immobilizes side and breast tissue—no need for rigid splints, tapes or support packs
- Patient can cough and breathe normally without fear of stress on incision
- Promotes patient confidence in maintaining normal posture and mobility
- Velcro® brand hook and loop fasteners for adjustable compression
- Allows for easy inspection of the surgical site
- Holds dressings in place without tape
- Latex-Free
